

FOURTH INDUSTRIAL REVOLUTION (4IR) SKILLS PROGRAM

Who Is This Training For?

We invite you to participate in our three-month accredited Fourth Industrial Revolution (4IR) Skills Program. Designed for professionals across all industries, this program is perfect for individuals eager to understand and leverage 4IR technologies in their respective fields.

What Will You Learn?

Our program provides a comprehensive understanding of 4IR technologies such as Artificial Intelligence, Big Data, Internet of Things, blockchain, and cloud computing. It covers their application across various sectors and explores how they can drive innovation and efficiency. Our in-house instructional designer customizes the content, ensuring it aligns with your specific industry and organizational needs.

Why Is This Training Relevant?

4IR technologies are reshaping the business landscape. Mastering these skills is crucial for professionals to adapt to this digital transformation, drive innovation, and deliver exceptional services.

What's the Larger Context?

This accredited program aligns with the ongoing digital transformation across industries. By enhancing your 4IR skills, you can better meet your customers'

needs, adapt to market changes, and contribute to the overall success of your organization.

Exit-Level Outcomes:

Upon completion, participants will be able to:

- Understand and apply the principles of 4IR technologies within their organizational context.
- Leverage 4IR technologies to drive innovation and efficiency.
- Advocate for and implement digital transformation strategies within their organization.
